

We are very happy with our No Call system in Wisconsin. It has worked very well and we don't want a bunch of special interest groups forcing us to change the rule and be subjected to relentless telemarketing campaigns. It has been very pleasant not to be bothered every night with annoying calls from people trying to sell you things you don't want or need. So, please leave us alone in Wisconsin and tell the bankers and others to stay out of our private lives and let us continue with our peace and quiet.
